“On The Street Where You Live”

For the past two years, recording artists Donna Deussen (vocals) and Paul Weitz (guitar) have been developing their unique style of jazz, with arrangements for duo as well as full jazz band. Donna Deussen is a magna cum laude graduate of Berklee College of Music in Boston. Her debut CD, "High Wire", which featured saxophonist Eric Marienthal (Chick Corea Elektric Band), was well reviewed and received airplay on many jazz stations throughout the U.S. and abroad. Paul Weitz originally hails from Buffalo, NY, and is a well-known guitar player who performs all over Los Angeles. His instrumental debut CD was also well received and gained airplay throughout the jazz community. Together the duo have performed in some of So. California's best known venues, including: Vitellos - Studio City, The World Famous Lighthouse - Hermosa Beach, a 90 week engagement at The Red Room in Encino, Squashed Grapes - Ventura, and NOLA's in Los Angeles. The result of their efforts is their exciting new co-produced CD.

"... Donna's amazing voice is smooth as silk and sexy as hell... Weitz's guitar work is fluid, skilled and unpretentious..."
- Pam Baumgardner, VenturaRocks.com

"...musically, it is such an interesting CD - the classic songs are made fresh and new. The overall playful, lighthearted quality, with so much humor interspersed, added another dimension..." - Mary Mulvihill

"... Guitarist Paul Weitz has complete control of his guitar and as fine as the other musicians are, he never gets overshadowed ... this group is perfect for Deussen's voice and style. They are top notch! Keep an eye on this terrific group!"

- Myrna Daniels, L.A. Jazz Scene
